2000 EQUALIZATION SURVEY

“Not Including Utility & Railroad”

STATE OF NEW HAMPSHIRE
DEPARTMENT
OF
REVENUE ADMINISTRATION

2000 EQUALIZATION SURVEY

“NOT INCLUDING UTILITIES AND RAILROADS”

May 1, 2001

This report presents the results of the 2000 Equalization Survey “**not including utilities and railroads**”. It was conducted by the New Hampshire Department of Revenue Administration pursuant to RSA 21-J:3 XIII (*Revised 4/1/99*) which states:

“XIII. Equalize annually the valuation of property in the several towns, cities, and unincorporated places in the state *including the value of property exempt pursuant to RSA 72:37, 72:37-b, 72:39-a, 72:62, 72:66 and 72:70* by adding to or deducting from the aggregate valuation of the property assessed in towns, cities and unincorporated places such sums as will bring such valuations to the true and market value of the property, including the equalized value of property formerly taxed pursuant to the provisions of RSA 72:7; 72:15; I, V, VII, VIII, IX, X and XI; 72:16; 72:17; 73:26; 73:27; and 73:11 through 16 inclusive, which were relieved from taxation by the laws of 1970, 5:3; 5:8; 57:12; and 57:15, the equalized valuation of which is to be determined by the amount of revenue returned in such year in accordance with RSA 31-A, and by making such adjustments in the value of other property from which towns, cities, and unincorporated places receive taxes or *payments in lieu of taxes* as may be equitable and just, so that any public taxes that may be apportioned among them shall be equal and just.”

To accomplish the foregoing, assessment ratio studies were conducted to determine how the average level of assessment for all cities and towns compares with the statutory 100% ratio so that taxes can be apportioned equitably.

The Department of Revenue Administration has completed its process of calculating the total equalized valuation of all the municipalities and unincorporated places throughout the state. The ratios reported for each municipality in this survey were derived by comparing the sale prices of sales of land, land and buildings and manufactured housing, covering the period of October 1, 1999, to September 30, 2000, against the actual assessments levied by the municipalities. Sales information was verified by the grantee whenever possible by means of the Inventory of Property Transfer, Form PA-34. Our goal is to use only arm's-length sales that transferred for market value in this analysis. Every effort has been made to exclude non-arm's length transactions including but not limited to: sales involving courts and government agencies, sales between relatives or corporate affiliates, sales settling an estate, forced sales, etc.

Every municipality was notified of its 2000 sales assessment ratio. These ratios were used in conjunction with other Department of Revenue adjustments to determine each municipality's total equalized value for purposes of RSA 21-J:3 XIII.

The following is an explanation of the information contained in this report.

MODIFIED LOCAL ASSESSED VALUATION: The modified assessed valuation for each municipality as reported to the Department of Revenue Administration on the municipality's 2000 Summary Inventory of Valuation (MS-1 Form) “not including utility values taxed pursuant to RSA 83-F”.

GROSS LOCAL ASSESSED VAL.: Sum of all assessed values not including utility values in the municipality

- Water & Air Pollution Control Exemption: RSA 72:12
- Physically Handicapped Exemption: RSA 72:37-a
- School Dining/Dormitory/Kitchen Exemption: RSA 72:23 (\$150,000 max per exemption)
- = **“MODIFIED ASSESSED VALUATION”**

- Elderly Exemption: RSA 72:39-a & b
- Blind Exemption: RSA 72:37
- Disabled Exemption: RSA 72:37-b
- Solar/Wind-Powered Exemption: RSA 72:62 & RSA 72:66
- Wood Heating Energy System Exemption: RSA 72:70
- School Dining/Dormitory/Kitchen Exemption: RSA 72:23 (exemption amount >\$150,000).
- = **NET LOCAL ASSESSED VALUATION Not Including Utility Valuation:**
The education property tax rate is computed using the net local assessed valuation not including utility valuation.

D.R.A. INVENTORY ADJUSTMENT: The sum of the adjustments of the net local assessed valuation divided into two categories.

Category 1: The total modified local assessed value of land (excluding land in current use, conservation restriction assessment & utilities), buildings and manufactured housing is equalized by the 2000 equalization ratio. The difference between the net local assessed value of land, buildings and manufactured housing and the equalized value equals the D.R.A. adjustment for land, buildings, and manufactured housing.

Category 2: Pursuant to RSA 79-A:6-a and 79-B:8, an adjustment for land in current use and conservation restriction assessment is made by dividing the total local assessed value of land in current use by the 1999 equalization ratio to obtain the equalized value of current use and conservation restriction assessments. If a municipality has had a full revaluation as defined by Rev 603.01 (d), a ratio of 1.00 is used. The difference between the assessed value of land in current use and the equalized current use value equals the D.R.A. adjustment for current use and conservation easements.

EQUALIZED ASSESSED VALUATION: The sum of the modified local assessed valuation plus the inventory adjustment.

ADJUSTMENT RSA 31-A SHARED REVENUES: The equalized value of monies received from the shared revenues distributed pursuant to RSA 31-A. RSA 31-A revenues formerly apportioned to school districts now help the Education Trust Fund. Thus, these monies were not equalized and included in this amount. Meals and Rooms Tax revenues distributed to municipalities pursuant to RSA 78-A:26 were also not equalized and, therefore, are not included in this amount.

BASE VALUATION FOR DEBT LIMITS: The sum of the equalized assessed valuation and the equalized valuation of the shared revenues.

PAYMENT IN LIEU OF TAXES: The equalized value for payments received in lieu of taxes including State and Federal Forest Reimbursements, Recreational Land Reimbursements, Flood Land Reimbursements, Sand and Gravel Activity Tax monies and others.

TOTAL EQUALIZED VALUATION *NOT INCLUDING* UTILITY VALUE AND EQUALIZED RAILROAD: The sum of the base valuation for debt limits, and the equalized value of payments in lieu of taxes.

The 2000 “total equalized valuation not including utility and equalized value of railroad monies reimbursed to municipalities” will be used to apportion the education property tax for the tax year 2002. The 1999 total equalized valuation not including utilities and the value of railroad monies reimbursed to municipalities will be used to apportion the education property tax for the tax year 2001.

% PROPORTION TO COUNTY TAX: The percentage of proportion to \$1,000 of tax that is to be allocated to each town within the county comparing each town’s total equalized value to the total equalized value of the county.

% PROPORTION TO STATE TAX: The percentage of proportion to \$1,000 of tax that is to be allocated to each town within the state by comparing each town's total equalized value to the total equalized value of the state.

EQUALIZATION RATIO: The 2000 sales assessment ratio as determined by a ratio study conducted by the Department of Revenue Administration's equalization staff.

COUNTY & STATE TAX RATE: The sum of the 2000 gross property taxes to be raised by each municipality in each county and the state divided by the total net local assessed value for each municipality in each county and the state.

STATE & COUNTY RATIOS: The state and county gross assessed values divided by the total equalized valuation. The state and county ratios are calculated for statistical purposes only. They are not applied to any figure as part of the equalization process.

APPEAL OF TOTAL EQUALIZED VALUATION

Municipalities were sent their 2000 Notification of Total Equalized Valuation on May 1, 2001.

Per RSA 71-B:5 II, any municipality aggrieved by the total equalized valuation as determined by the D.R.A. must appeal to the Board of Tax and Land Appeals in writing within **30 days of the town's notification** of the municipality's total equalized valuation.

The appeal period is not extended due to any communication, either verbal or written, between the D.R.A. and a municipality regarding the total equalized valuation.
